ABOUT US

Putt Mania was created by the **same minds behind LaserBlast** and their highly durable, futuristic laser tag equipment. We have worked with **over 500 family entertainment centers in over 30 countries since 1997.**

We believe in creating **innovative, high-quality products** that are backed by **industry-leading support.** Our founders made use of decades of real-world engineering experience to design a **modernized, high-tech mini golf solution** that fits your existing indoor mini golf course.

We believe it is time to **ditch the paper scorecards** and renew the excitement of this beloved fun center attraction.

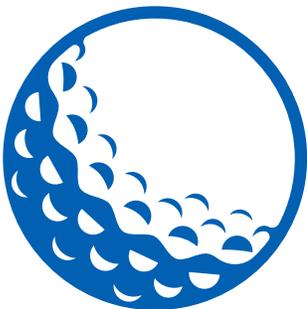

GETTING STARTED

Space Requirements

9-hole courses tend to need around 2,000 - 2,500 sqft (762 sqm) of space, while 18-hole courses tend to need about 3,500 - 4,000 sqft (1,066 - 1,371 sqm) of space. Though 9 and 18-hole courses tend to be the most common, you can vary the number of holes to match your space.

Construction & Theming

We recommend working with an experienced mini-golf fabrication company to build and theme your course. We've partnered with some amazing companies and can recommend the best fit for your project, or work with your preferred fabricator. Putt Mania can also be installed into any existing mini-golf course, whether it is built with bricks, concrete, wood, foam, or plastic.

Pricing & ROI

Industry average pricing tends to fall around \$0.75/hole per player; however, it is easier to justify charging \$2-\$3 more per game with premium features like what Putt Mania offers. Mini golf is often looped in with party and unlimited play packages. The expected ROI for a mini-golf attraction is around 12 months.

Throughput

Putt Mania allows groups of up to 6 to play on the same hole at the same time. To maximize throughput, groups can start on different holes, minimizing waiting time. Our course management screen allows staff to monitor what is happening on the course and assign groups accordingly.

RETROFITS TO ANY INDOOR MINI GOLF COURSE

Putt Mania retrofits to your new or existing indoor mini golf course, allowing you to **upgrade** your customer experience **without overhauling your entire attraction.**

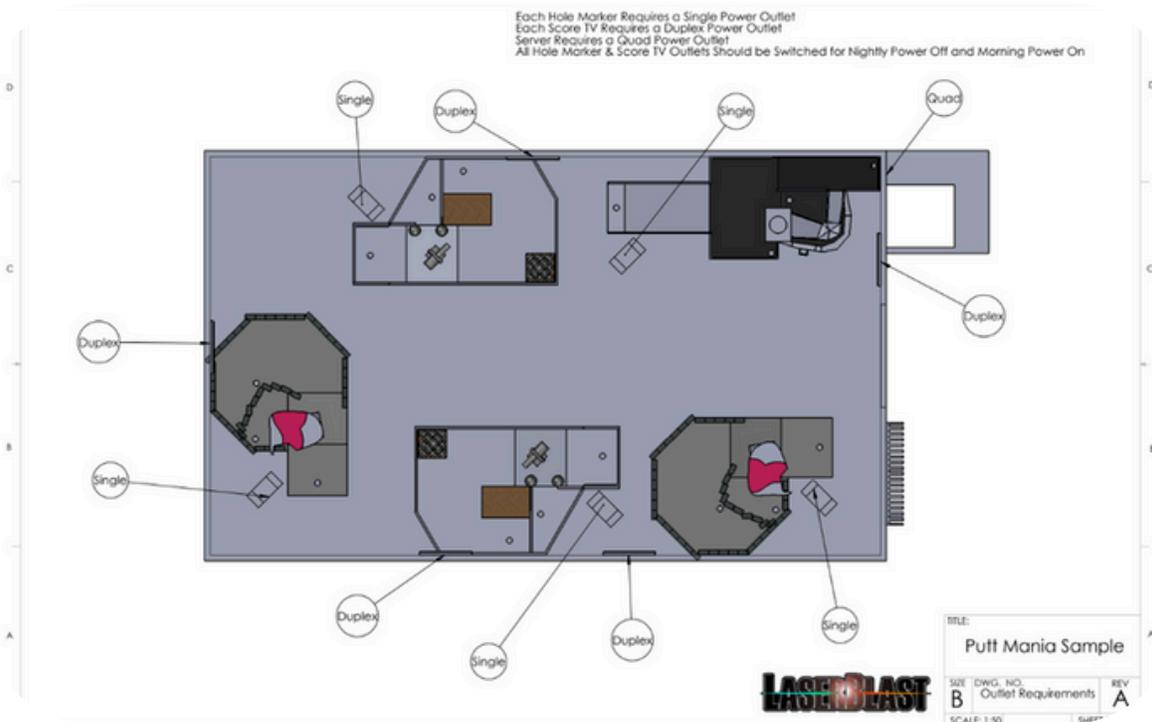

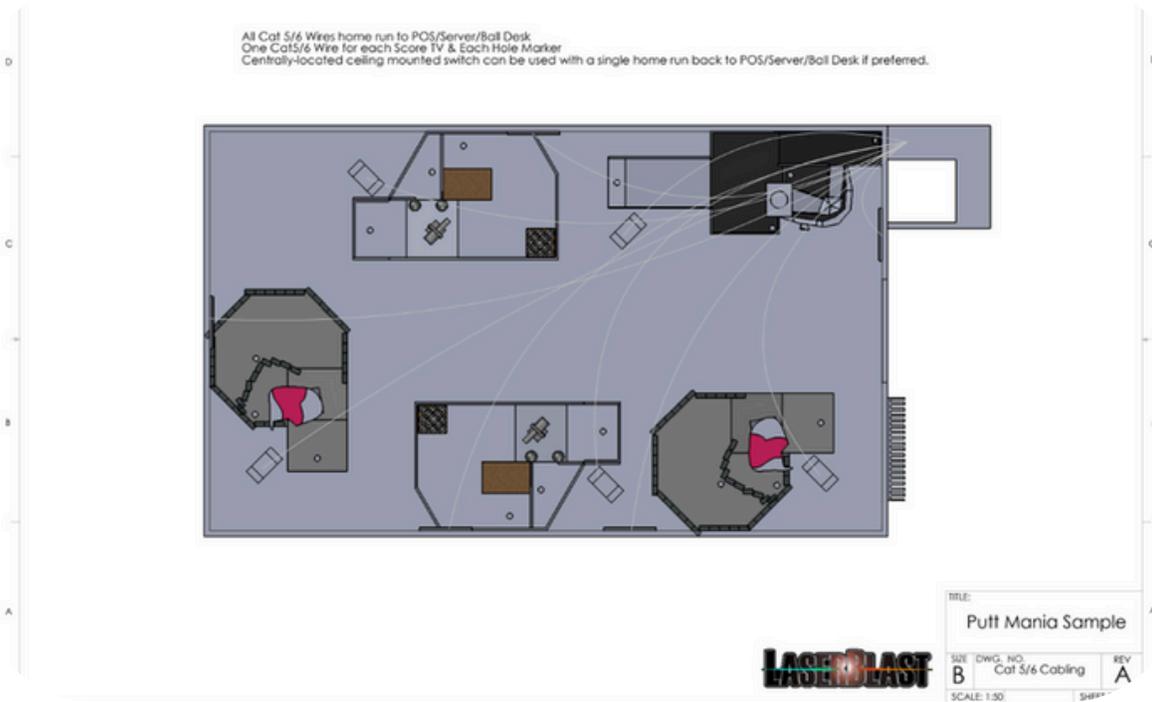

Maintain the fun of traditional mini golf gameplay, with **up to 6 people putting on the same hole at the same time, in any order**, while adding exciting new features like **automatic scoring, interactive lights and sounds, digital hole markers, live leaderboards**, and more.

All Putt Mania features can be added to both new and existing mini golf courses. Lights, sounds, televisions, tees, cups, midpoint sensors, and more **can be used with any indoor mini golf attraction.** Plus, we have a **wide variety of customization options**, allowing you to tailor your Putt Mania attraction perfectly to the theme of your existing course.

POWER & WIRING REQUIREMENTS

For Putt Mania to be installed at your Family Entertainment Center, there are some wiring and power requirements to get everything up and running. CAT 5/6 Cables will be run from each leaderboard TV and hole marker back to your server. Power will also be needed at each hole, with some varying needs regarding outlet size. Take a look at the samples below to better understand these requirements.

PUTT MANIA FEATURES

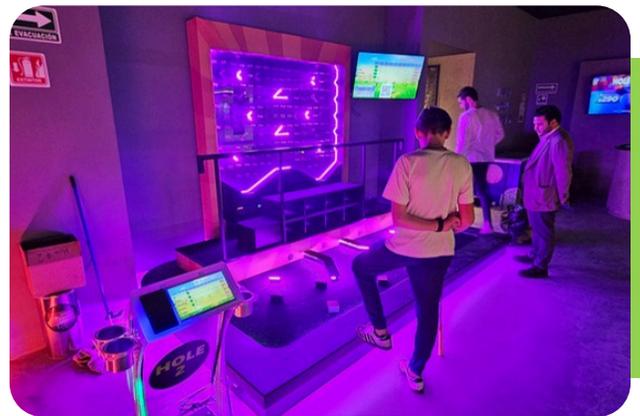

AUTOMATIC SCORING

Pencil and paper scoring is so outdated! Our self-scoring, LED-lit **golf balls actually track your strokes as you putt**. Scores are tracked and displayed at each hole on both our digital hole markers and 42" live leaderboards.

TRADITIONAL GAMEPLAY

Putt Mania allows for groups of up to 6 players to play on the same hole at the same time, in any order. Maintain the beloved **traditional mini golf gameplay** while adding **new and exciting features** to enhance the guest experience.

DIGITAL HOLE MARKERS

Easily view and adjust your scores at each hole with our digital, touchscreen hole markers. Our light-up hole markers will **look great in your facility**. Background images and ads are fully customizable, allowing you to match your hole markers to your attraction theme. Plus, did we mention **they have built-in cup holders**?

LIVE LEADERBOARDS

Boost the competition and boost the fun with our 42" leaderboards placed at every hole. Players will see their score and **interactive animations** as they navigate the course, giving them bragging rights and allowing them to **celebrate skilled shots together**.

PUTT MANIA FEATURES

INTERACTIVE LIGHTS, SOUNDS & ANIMATIONS

Lighting, sounds, and animations sync up with the putting action and the theme of the course.

Customizable sound effects and reactive lighting immerse players in the game.

Celebration animations create a fun surprise for players as they navigate the course.

BONUS CUP OPTION

Add an additional cup to any or all of your golf holes to augment gameplay and create an opportunity to **score bonus points**. Bonus cups bring an **enhanced challenge** for players and **add more variety** to gameplay, promoting both **excitement and replayability**.

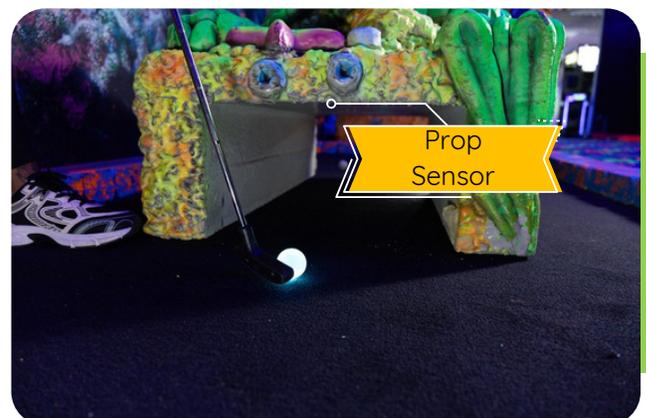

CUSTOMIZATIONS

Various customization options allow you to **create an experience tailored to your fun center**. Scoreboard and hole marker backgrounds, music and sound effects, and onscreen advertisements can all be customized to **better fit your branding**.

PROP SENSORS

A sensor placed inside a prop that guests can putt through recognizes when the ball passes under it. The sensor **can trigger audio and DMX effects, as well as award point bonuses**, encouraging guests to take more trick shots and adding dimension to the game.

NEW OPTIONS

VOICEOVER COMMENTARY

Laugh, cheer, and have a great time with Putt Mania's voiceover commentary. **Encouraging and playful banter** played from our hole marker speakers will drive the competition and **add even more excitement to the game.**

PAR TEE PROJECTOR

Our Par Tee Projector brings **awe-inspiring, interactive video animations** to your mini golf course. Themed videos that appear based on what is happening in the game will **bring your attraction to life** and WOW your guests.

ONLINE SCORING

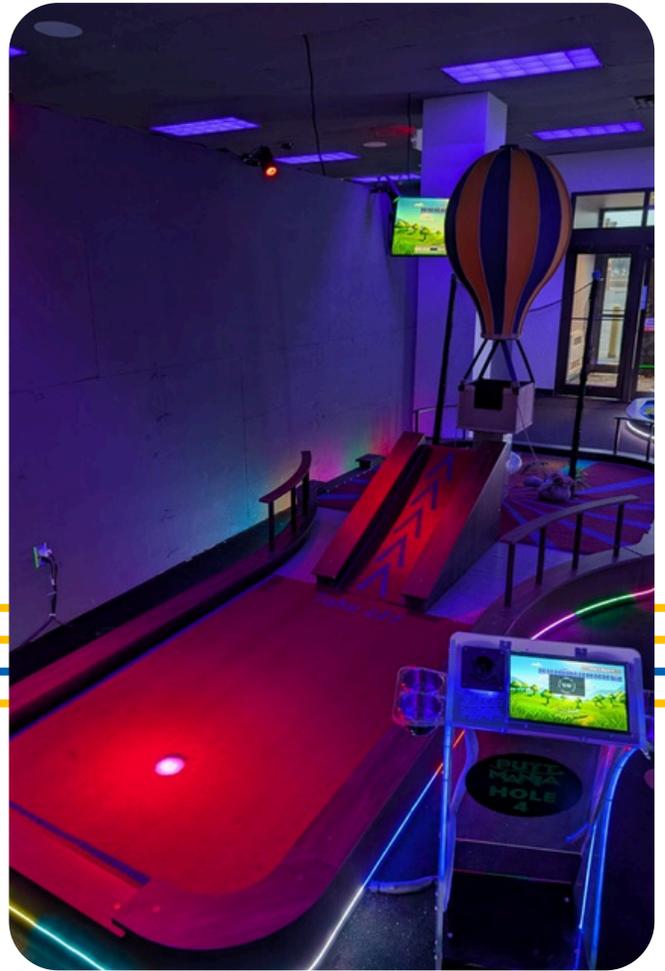

Allow players to **access game scores on their phones** easily. With the simple scan of a **QR code**, players can view their scores and see how they stack up to other players. Just because you ditch the paper scorecards doesn't mean players cannot look back at their scores!

BEST PLAYER ↕	BEST PLAYER SCORE ↕
REGINA	22100
DANIELA	13900
LUIS	19400
ALIZA	7400
JORGE	18200
LEO	11800
MORGAN	8500
CLAUDIA	17900

Operator Resources

WHAT MAKES PUTT MANIA A GREAT CHOICE FOR FUN CENTER OPERATORS?

You can upgrade your existing attraction.

Want to bring something new to your FEC but don't have room to add another attraction? Putt Mania can make your existing mini golf course feel like a new attraction to guests without taking up more space.

It adds a new spin on a classic game.

Putt Mania adds self-scoring, interactive sounds and animations, and more strategic gameplay; however, it still plays like the traditional mini golf your customers know and love.

It comes from years of experience.

Putt Mania may be a new product, but the minds behind it aren't. Our engineers have decades of real-world engineering experience and developed LaserBlast, which has been utilized in over 500 locations in 30+ countries since 1997.

It's customizable to fit with your FEC aesthetic.

You can customize hole markers and leader board backgrounds, music, and sound effects, allowing you to match the Putt Mania experience to your existing theme.

Level up your indoor mini golf attraction with Putt Mania!
